VENEERS & PLYWOOD

BRAND

INTRODUCTION

Antico Veneers is an up-and-coming company with a notion of reviving the ancient art of veneering with a contemporary and artistic touch. At Antico veneers, we endeavour to add not just vitality to an interior space but also bring freshness of ideas, designs and nature to your place. Based in Ludhiana, India, we take pleasure in offering our customers with high quality products, client services and helpful insight into the world of designs. We believe in changing the rawness of wood into a solution that is sustainable, elegant and efficient.

With our upbeat outlook and perseverance, Antico offers a rich palette of colours and designs of veneers for your residential as well as commercial

PRODUCTS!!

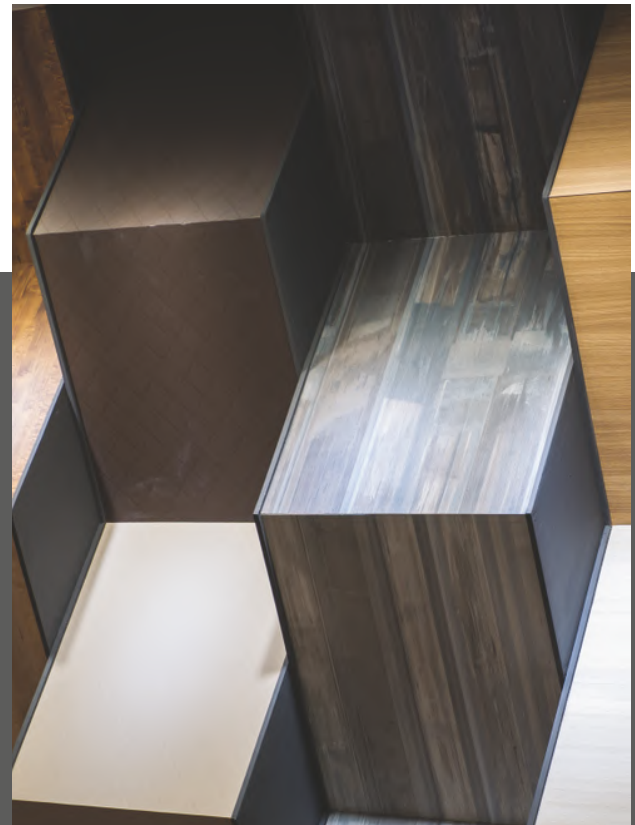

PRODUCT RANGE

● PLYWOOD

- Plus
- Prime

● VENEER

- Vara
- Prakriti
- Satvik

Product Description:

Antico plywood is made from wood sourced from the best farms across the nation. The high quality veneer and phenol used to make the Plywood are the actual source of its strength and durability. Top notch quality of Phenol Formaldehyde Resin and accurate amount of heat pressure during the manufacturing makes the ply highly resistant to cold or boiling water

Advantages:

Antico **Plus** & **Prime** is a result of high end imported calibration machine which helps the product to maintain a uniform thickness and makes it dimensionally stable across the edges. Calibration and advanced sanding techniques gives the product an incredibly smooth surface making it a trouble-free ply for furniture manufacturers, interior designers, contractors or architects.

PLYWOOD PLUS & PRIME

Antico **Plus** & **Prime** comes with an option of laminating your plywood with your preferred veneer which makes it easier for you to beautify your surroundings without any additional hard work.

We Believe in
Quality **PRODUCT**

PLYWOOD PLUS (MR GRADE)

Product Description:

Antico Plus (MR Plywood) is made from quality Gurjan wood and undergoes Melamine Resin bonding to conform to IS:303 standard. It is dimensionally stable and durable for lasting service. Bonded with high quality MUF Resin it is pressed under heat, pressure and controlled conditions to obtain a solid bond.

● What is **MR grade**?

The term MR (moisture resistant) can be a bit confusing in this regard. But customers should note that 'moisture resistant' does not mean 'waterproof'. It only means that the plywood is capable of resisting humidity and moisture.

PLYWOOD PRIME (MARINE)

Product Description:

Antico Prime (Marine) is crafted from selected high quality timber and is bonded with Resorcinol Phenol Formaldehyde. Antico Prime (Marine) is impregnated to the core with preservative chemicals in Pressure Impregnation Treatment Plant which makes it highly resistant to borer and termites. Antico Prime (Marine) is 72 hours boiling waterproof and is most suitable for use in rigorous conditions and is suitable for ship, boat, building railway coaches, shed & cooling towers etc.

● What is **Marine plywood**?

Marine plywood is a waterproof plywood used in areas where water contact is expected. Areas like shipping industry, factories, etc. and for homes- in kitchen and bathrooms. For a plywood to be waterproof plywood,

TEST	ISI REQUIREMENT	TEST RESULT
Moisture Contents	5-15%	13%

About Veneers

Our customers come first. Our values begin with happy and satisfied customers and we stay laser-focused to make that happen.

We care for our environment and believe that with more use of veneers we can show our kindness to the nature. With each veneer produced, the wastage of wood is minimized as compared to its other counterparts.

We value consistency in our work, which comes with maintaining our product quality without any excuses. In addition, we understand the value of your time and thus we always aim for timely delivery of

VENEER EXOTIC

Product Description:

VARA collection by the house of ANTICO symbolizes a story of quality and craftsmanship, offering every interior a different character and seasoned look, typical for both client and interior designer's sophisticated tastes. We offer a large selection of exotic species which include a large variety of burls, crotches and figured veneers. In contrast to traditional veneers the availability of exotic veneer is limited by nature but we at ANTICO try to source these from across the globe to give your dream project a distinctive aesthetic.
